-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 33-38 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 6-256714.

The reference discloses coating compositions comprising an epoxy resin, a melamine resin, and a blocked polyisocyanate, wherein the components are used in amounts that overlap those claimed by applicants. See abstract and descriptions of components B), C), and D).

3. Despite applicants' response, there is no requirement within the claims that the protective coating be a clearcoat or have the properties associated with a clearcoat.

4. Claims 33-38 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 179,281.

The reference discloses sprayable coating compositions comprising an oligomeric reaction product of an epoxy compound and a carboxylic acid compound, a blocked polyisocyanate, and a melamine resin crosslinking agent. See pages 2-4.

5. Despite applicants' response, there is no requirement within the claims that the protective coating be a clearcoat or have the properties associated with a clearcoat.

6. Except for the aforementioned rejections, the rejections set forth within the previous Office action have been withdrawn in view of applicants' response. In view of applicants' response, the position is taken that the claiming of the composition as a clear coating composition excludes all components, such as pigments, including carbon black, that would prevent the composition from functioning as a clear coating composition.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
